

Fall 2015

Dear Fellow Santa Cruz Parents,

As parents we have so much on our plates. Endless to do lists. One area in which parents need to focus is on our own children. Not only to be involved in their lives, but for academic and social success. Our children need to rely on amazing parents, grandparents and guardians to be successful. I will not get into statistics on how valuable it is to be an active parent in the lives of our children.

My name is Claudia Teran we have been part of Santa Cruz School for five years now. My son Sebastian is currently in fourth grade. I am truly blessed to have more time to be able to volunteer and see his growth every day at school. Sebastian understands that sometimes we have to give a little to receive a more. He is very proud of his parents and is always volunteering his parents in many activities.

As for myself, I have grown as a person. I enjoy helping our families from and supporting our school. I understand the value of teachers and staff at Santa Cruz and their great effort they make every day to educate our children. Knowing they can count on you for whatever reason gives me great comfort and satisfaction.

I take great pride in our school and its environment. Letting our children know you are visible during their education will remain in their lives forever and pass this onto their own children.

Sincerely,

Claudia Teran
